

Never Too Early For Christmas At Sea At The Port Of Palm Beach Seafarers' Center

Christmas supplies arrived early this year when executives from Moffatt & Nicol, PSAManagement and HDR Inc. delivered gifts for our nonprofit's head start on its holiday initiative called *Christmas at Sea*.

These executives and their staff filled oversized crates with 780 pairs of new crew work socks and 400 sets of personal hygiene supplies for mariners visiting the Port. This generous group donation will be included in our annual *Christmas At Sea* holiday gift boxes personally delivered for each crew member on ships arriving at the Port from November 22nd through January 31, 2022.

At Christmas and throughout the year our Center seeks donations for all sorts of supplies for mariners such as work crew socks, personal hygiene kits, bibles, rosaries and religious medals, hand-knitted seafarer watch caps and scarves, soaps, shampoo, magazines and much more.

As it has for more than 15 years, our *Christmas At Sea* tradition is part of the friendly and supportive relationships stevedores, dock workers and port community employees maintain with visiting mariners throughout the year. It shows our appreciation for seafarers hard work and sacrifices delivering goods from all over the world to our port.

We are so grateful for the amazing kindness and support of our thoughtful donors Patrick, Ken, Hugo, Chris, Errick, Ali, Dolores, Samantha and our Center volunteers Phyllis and Aaron.

Please consider the Port of Palm Beach Seafarers Center for your donations and gifts to help support and care for our mariners and port community.
